

Resources for Hand Therapists During the PHE

HandLab has published some great resources for protecting therapists and patients. They have published instructions for fabricating a plexiglass shield for clinic use. See the details here: <https://bracelab.com/clinicians-classroom/tabletop-treatment-shield/>

Having trouble explaining the SARS-CoV-2 virus to patients? This YouTube video is one of the best I have seen for explaining how the virus invades and commandeers cells and how possible therapies may work.
